Greetings in Christ Jesus' name!

Over twenty years I had been raised awareness on officials' biases within our cases. Resulted, block our equal access to courts. Knowingly that was contrary to constitutional laws, and otherwise violated said promised covenant policy that governed by law. Many problems been known by attorneys, which mostly fearful that those officers and state's attorneys bias scheme create an increase backlash that illegal retaliation interfered with my pending cases. It is a different system within said system at times.

Corruption, especially fraudulent billing by officials that used states, and federal funds to illegally interfering with my legal rights. The ignorance to constitutional duty, that dual role to balance the rights of every human being, and to decide to prosecute officials that violated laws in my cases. The reality that sufficient evidences to protect my life, and to prosecute bias people that continued to illegally interfere with my pending cases with their creative lies and created material witnesses at times. There is a different level of justice, which goal was contrary to human lives.

Society believed officials' lying scheme that created sad circumstances for people that they do not like. Yet, most people do not have the nerve to speak out against what seems wrong at times. So where do we go from here??? Why officials multiple human cruelty allow to growing worse. It is senseless to believe bias officials always prosecuted the right people, public opinion still matter to force some meaningful balance within the court rooms. This said reason why I am respectfully requesting your assistance as counsel on record to obtain a copy of my jail and prison logs of each person gain entry to visit me on an official level.. And those who were blocked legal entry to meet with me. Also, area on the record that reflect complaints and requests that were filed throughout the years, and court order which forced compliance, as well. And civil litigation issues, and criminal pro-se status whether or not there was interference to equal access to court in order to redressing grievances of great importance.

Because of these violators immunity it happened to further circumventing administrative remedies, and proper relief from the courts. The fact that I have to get exhibit evidence to state a proper cause of action. Thanks for your time and assistance.

Sincerely, *Lancelot Armstrong,*
